Hi Michael,

Yes, we are putting Sharrows on Bennington. It is about 1 mile. I will coordinate with John DeBenedictis on timing to get an announcement (explanation) in the local paper. Since Sharrows are a sub-optimal bike accommodation, as compared to bike lanes, my recommendation is to be downplay them a bit, and focus more on the education.

Hi Michael.

The plan is to put in share the road facilities (signs and "sharrow" pavement markings). This is similar to what we did no parts of American Legion and is instead of complete bike lanes.

To put in a complete bike lane, we would need to put the road on a "diet" and reduce it from 2 travel lanes each way, to 1.

I can send you photos of both facilities if you need.

**Subject:** re Mass. Taxpayers Fdt report on Q 1--70% cuts in most programs

# The Enormous Consequences of Question 1 Report by Massachusetts Taxpayers Foundation (MTF)

MTF Analysis: Question 1 Would Cut Most State Programs by More than 70%

The much respected business funded organization the Massachusetts Taxpayers Foundation issued this report about the huge consequences of Question 1.

After accounting for 5 legally mandated state programs, the rest of state government would bear across-the -board cuts of 71.1% with the loss of \$12.5 billion in state income tax revenue.

The cuts would cover almost all human services programs for children, elderly, and adults, courts prisons, our state colleges and universities, state parks and environmental programs, transportation programs, state employee pensions and health benefits, Registry of Motor Vehicles and other programs.

- --Except for that portion of Chapter 70 aid to cities and towns that is legally mandated, state aid to cities and towns would be cut by 71%
- The large cuts in local aid would lead to higher property taxes which for many individuals would more than offset their income tax savings.
- --High Income taxpayers would gain most of the benefits of repealing the income tax. The average savings for those earning more than \$100,000 would be \$16,295 compared to \$850 for those earning less than \$50,000 who are 65% of taxpayers. The \$3,700 average savings touted by the Yes on 1 campaign is an average, but the benefit is heavily skewed to the wealthy.
- --All state annual capital spending for transportation, higher education, courts, parks, economic dvelopment would cease for the next seven years. This would mean a loss of \$420 billion in capital investments and the state's bond rating would fall too.
- --If the state were to lay off all 68,000 state employees, the total savings would be \$5.3 billion, less than half the \$12.5 billion in cuts that have to be made because of the loss of income tax revenue.
- --The 5 legally mandate programs include a) Medicaid, which the state receives 50% matching federal funds and covers care for those over 65, thoes needing institutional care like nursing homes, poor children, lower income people with breast or cervical cancer, b) Debt service on past capital budget bonds that have been spent, c) Some parts of Local Aid to cities and towns, but not all of it, d) MBTA--the state's share toward the budget, and d) that portion of the Sales Tax that helps in finances new schools

**Subject:** Sneak Peek at the Climate Action Blueprint for Next President and Congress

Click to view this email in a browser

Local government officials from across the nation will have the opportunity to hear about the Climate Action Blueprint during two conference calls scheduled for Wednesday, October 15 at 2 pm Eastern and Friday, October 17 at 1 pm Eastern.

On September 14-16, 2008, approximately 40 city and county officials convened at the Rockefeller family's Kykuit estate in New York to begin developing a climate action blueprint for the next President and Congress. The retreat, funded by the Rockefeller Brothers Fund, provided an opportunity for local government leaders identify federal resources, tools and incentives they need to meet the climate change challenge. Climate Communities and ICLEI USA are developing the blueprint to focus on national policies needed to empower local governments in promoting green buildings, increasing public transit and cleaner vehicles and fuels, fostering community-scale renewables, building green infrastructure, creating green jobs and businesses, and adapting to the impacts of climate change.

Climate Communities and ICLEI USA are hosting two conference calls -- on October 15 and October 17 -- to share the blueprint's recommendations with local governments nationwide. Climate Communities and ICLEI USA will seek the endorsement of more than 1,000 local elected leaders from across America for the blueprint, which will be officially released in December 2008. The blueprint's release will be preceded by media events in cities and counties across America, and will culminate in a national press conference in Washington, DC. Climate Communities members will also meet with the next President's transition team and leaders of the incoming Congress to discuss the path for climate, energy, transportation and spending legislation.

Click on the link below to register for one of the conference calls and receive your copy of the draft blueprint.

Hope you are well. This is a heads-up for a call I will give you tomorrow to see if it is possible for me and ACDC staff to meet with you to discuss some BRA proposed zoning changes in Chinatown. We think it may create problems and we need you and the Mayor to be involved in this. Timing is urgent because BRA staff is planning a community meeting on October 14 to present this to the community.

Hopefully you have a half hour during the day when we can talk about this. If you can reply with a suggested time, that would be great. I will call you before 10 AM. Thanks.

#### Moremi Initiative Launches New Website

- www.moremiinitiative.org

Moremi Initiative for Women's Leadership in Africa (Moremi Initiative) recently launched its website as part of a re-introduction to partners and supporters. The new website provides an opportunity for visitors and users to learn more about our programs, partnership opportunities and critical issues affecting African women and girls as well as to get involved.

Moremi Initiative was launched in 2004, with a mission to engage, inspire and equip young African women and girls to become the next generation of leading politicians, activists, social entrepreneurs and change agents.

Moremi Initiative is an African initiative for African women to advance opportunities and potential of women and school-age girls in an effort to create an inclusive society where women and girls can participate in leadership roles and decision-making in critical spheres of society.

The intent of Moremi Intiative's programs is to increase visibility of fellows, expand advocacy on women's issues, and establish a strong international network that promotes African women's leadership.

Thank you for sharing our journey with us so far and we are excited about the possibilities for partnership and collaboration in the future.

# DiMasi to endorse Chang-Diaz Tuesday

House Speaker Salvatore DiMasi plans to endorse Sonia Chang-Diaz in her general election race against state Sen. Dianne Wilkerson Tuesday morning.

Sources close to the speaker told *PolitickerMA.com* Monday night that DiMasi, who backed Wilkerson last month in her primary against Chang-Diaz, will endorse Chang-Diaz at a Democratic Party unity event Tuesday in Boston's South End.

### Land/labor swap with Army Reserve afoot in Southie

Joseph Mont

The historic Barnes Building is among the properties that are on the market as part of a proposal offered by the U.S Army Reserve.

A unique land and labor swap has opened up several parcels of developable land on the South Boston Waterfront and could lead to the redevelopment of the historic Barnes Building.

Last week, it was announced by the U.S. Army Reserve that it would put 13 parcels, encompassing more than 8 acres, on the market. Also included in the deal is the nine-story, 620,000-square-foot Barnes Building and more than 1,000 deeded parking spaces. The properties, located in the vicinity of 495 Summer St., are all near the World Trade Center and Boston Convention and Exhibition Center.

Developers seeking the land would obtain it after enter into an agreement with the Army Reserve. The chosen partner will be required to "provide the entire range of services needed to design, build and equip new facilities on government property at Fort Belvoir in Virginia." These services will include the design and construction of a new 282,995 square foot training facility and office building.

Project proponents hope to have an online auction for the arrangement in January with an agreement executed by March.

The South Boston land is being marketed by GVA Williams under the name Seaport Xchange.

According to GVA Williams, upwards of six acres of the property is developable, most of which is currently used for parking spaces. The Barnes Building, originally constructed as a warehouse in 1909, was converted to office use in the 1970s and could be redeveloped once again by the new owners. A 14,000 square foot maintenance garage is also included among the South Boston inventory.

Among the selling points offered by GVA Williams are tax credits offered by the city for businesses that relocate to the area, the possibility of a new City Hall on the water and the ongoing Fan Pier and Seaport Square development projects. The Seaport District is described in marketing materials as "approximately 1,000 acres of prime real estate located directly across the Fort Point Channel from the Financial District.'

Catherine Thompson, CEO of GVA Williams Boston, said the land/labor swap is probably the first of its kind in the region.

"The entire area is burgening with development," she said. "There are hotels, retail and office space. There are a tremendous number of opportunities."

Following up on Michael's question about reduced rates during snow emergencies at the BCG, please note the City's web site below which indicates that we already do this. I am told that this is something worked out in previous years by Fred Peterson and Tom Tinlin. I don't know how much it is used.

Importance: High

Thanks Joe for getting back to me about the Mayor.

Possibly as the beginning of next week comes together another opportunity may arise. I have attached a copy of the agenda with timeframes with the speaker list and another copy of the invitation which has the companies represented on the panels. We are up to 125 registrants. The date again is October 8th at The Parker House and there has been a room change to the Alcott Ballroom.

This group is made up of CDCs, developers etc all from the area. A good group for the Mayor and a friendly crowd.

Thanks again for trying to make this happen, it would personally mean a lot to me.

Best,

Kevin

Michael - Didnt see you at Moondance, there were so many people - Jeryl Oristaglio who heads the group is a good friend and has done so much. Also there is an issue brewing in our building with the lack or resident parking stickers. Its involved and the association has hired Larry DiCara to plead its case with the city. I have already met with Harry Collings, Tom Timlin, Ron Druker and a rep from Goulston and Storrs. Basically Drucker didnt give the buyers, myself included any notice that we werent able to have parking stickers. Then the City issued them but wont renew. Larry has met with Bill Linnehan and would like to have a moment to speak to you. I dont like to trade on relationships so consider this a heads up - can I have Larry call you? If you like with a quick ten minute conversation I can give you the high points but certainly I dont want you to be in left field on this issue. Later, and breakfast in my hood is in order - soon. Take care - Ken

Charlestown Youth Football & Cheerleading

#### Dear Sponsor:

Since the fall of 2006, there has not been a youth football or cheerleading program in our community. Early this spring, a working group of dedicated volunteers was organized to lead a new youth football and cheerleading program in partnership with American Youth Football -- the largest growing youth football program in the nation. In doing so, the Charlestown Youth Football & Cheerleading (CYF&C) program was established. It was determined that the American Youth Football model, a non-intrusive, non-controlling football and cheerleading program, empowered us to restructure our program to best serve the youth of this community. In partnership with Massachusetts General Hospital and Northeastern University  $\Box$ s Sports and Society Foundation, we have begun to educate our participants on the importance of nutrition and exercise, as well as team-building and sportsmanship.

There are many challenges before us as we are confronted with the need to purchase new equipment and uniforms for the cheerleading and football program, a cost in excess of \$38,000. Thus far, we have raised \$16,000 through grants and donations. We keep fees at an affordable rate of \$25 per participant so your help is needed!

In order to defray costs, we are seeking sponsorships. The sponsorship program is the club's major fundraising activity this year and going forward. It is through this program that the we hope to raise the biggest part of our cost. With your help our program can be a success. We will solicit ads, to appear in our Gameday book, from businesses and merchants in Charlestown and surrounding areas. A small part of the ad cost helps pay for the space in the book, while the balance will help defray our cost for the year.

Be a part of the team!

Please send your tax-deductible donation. You can fax your order form back to 617-337-5083 or return it to us at 255 Medford St. Charlestown, Mass 02129 if you have any questions, please call me at (617) 839-8745.

On behalf of the 175 boys and girls who today participate in Charlestown Youth Football & Cheering program,
WE THANK YOU!
Sincerely,
John Taglilatela

Hi Dot, Nick and Liz,

Good news, Roche Brothers Supermarket has agreed to provide all the food for the preparation of the Neighborhood Dish meal this Thursday.

The food for the bags of groceries that people are leaving with is being provided by Catholic Charities of Greater Boston (Yawkey Center,) The Greater Boston Food Bank and The American Red Cross. Daphne wanted to make sure that you all had this information so that the sponsors can be properly acknowledged if you put anything out.

#### Thanks!

#### Charlestown Youth Football & Cheerleading

#### Dear Sponsor:

Since the fall of 2006, there has not been a youth football or cheerleading program in our community. Early this spring, a working group of dedicated volunteers was organized to lead a new youth football and cheerleading program in partnership with American Youth Football — the largest growing youth football program in the nation. In doing so, the Charlestown Youth Football & Cheerleading (CYF&C) program was established. It was determined that the American Youth Football model, a non-intrusive, non-controlling football and cheerleading program, empowered us to restructure our program to best serve the youth of this community. In partnership with Massachusetts General Hospital and Northeastern University's Sports and Society Foundation, we have begun to educate our participants on the importance of nutrition and exercise, as well as team-building and sportsmanship.

There are many challenges before us as we are confronted with the need to purchase new equipment and uniforms for the cheerleading and football program, a cost in excess of \$38,000. Thus far, we have raised \$16,000 through grants and donations. We keep fees at an affordable rate of \$25 per participant so your help is needed!

In order to defray costs, we are seeking sponsorships. The sponsorship program is the club's major fundraising activity this year and going forward. It is through this program that the we hope to raise the biggest part of our cost. With your help our program can be a success. We will solicit ads, to appear in our Gameday book, from businesses and merchants in Charlestown and surrounding areas. A small part of the ad cost helps pay for the space in the book, while the balance will help defray our cost for the year.

#### Be a part of the team!

Please send your tax-deductible donation. You can fax your order form back to 617-337-5083 or return it to us at 255 Medford St. Charlestown, Mass 02129 if you have any questions, please call me at (617) 839-8745.

On behalf of the 175 boys and girls who today participate in Charlestown Youth Football & Cheering program,

WE THANK YOU!

Sincerely,

John Taglilatela

#### **Highlights**

#### • Mass. Ave. Corridor Project (Arlington Advocate)

The transformation of Massachusetts Avenue from a transportation corridor to one of Arlington's great pedestrian-friendly streets is beginning. Join us to envision and plan the future. Hear more about what's happening and tell us your ideas. Improvements will strive for a healthy balance between automobiles, bikes and

pedestrians to create a truly livable pedestrian-friendly street where people feel safe and comfortable meeting, shopping and strolling, and a vehicular traffic system that is safe and efficient and easy to understand.

#### • Rattling the cage (Boston Globe)

By Linda Kush -- At Alewife Station on a gorgeous September morning, the railings along the walkways resembled giant charm bracelets with bicycles dangling from every link, and the bike racks were full. A commuter who arrives at the T station in Cambridge daily at 10 a.m. has watched the line of cycles along the rails and fences increase all summer at a rate of about 10 per day.

## Silver Line Phase III presentation educates, causes outcry (<u>South End News</u>)

MBTA officials, engineers, and others involved with the planning of Silver Line Phase III gathered on Sept. 24 to present information on construction methods and answer residents' questions and address their concerns. The meeting was the first of several community presentations by the MBTA that aim to educate citizens on the more technical aspects of the project.

#### • Contra-flow Bike lane - Boulder, CO (Streetfilms)

Boulder, Colorado recently achieved the creme de la creme - Platinum bike status from the League of American Bicyclists so Streetfilms decided to pay the city a visit to get the scoop. Among the many bicycle amenities the city can boast, none spoke to us more than the contra-flow bicycle lane that runs three city blocks, connecting their popular Pearl Street pedestrian mall to a vital link of interconnected greenways. Streetfilms was impressed - and a little bit obsessed - by it.

#### • U.S. driving drops for 9th straight month (Reuters)

By John Crawley -- WASHINGTON -- Motorists on U.S. roads applied the brakes hard on driving when gasoline prices peaked over the summer at more than \$4 per gallon, according to the latest government figures released on Tuesday. The 3.6 percent year-over-year decline in miles traveled on all roads in July cemented a downward trend begun nine months ago in response to rising pump prices and economic weakness.

#### • Mobilien: Paris' Version of Bus Rapid Transit (Streetfilms)

Le Mobilien is Paris' version of what we know as a bus rapid transit system or a surface mass transport network. Paris has been doing "bus rapid transit" for decades, and after years of on-street operation and continuous fine-tuning they have now developed a system which they call the "Mobilien" - French for MOBI-lity plus "LIEN" which means link. Linking mobility. Unlike the BRTs that most US cities are looking at, the Mobilien adapts to different city contexts (i.e. street width and specific neighborhood dynamics).

**Subject:** Parking Stickers

Michael - Didnt see you at Moondance, there were so many people - Jeryl Oristaglio who heads the group is a good friend and has done so much. Also there is an issue brewing in our building with the lack or resident parking stickers. Its involved and the association has hired Larry DiCara to plead its case with the city. I have already met with Harry Collings, Tom Timlin, Ron Druker and a rep from Goulston and Storrs. Basically Drucker didnt give the buyers, myself included any notice that we werent able to have parking stickers. Then the City issued them but wont renew. Larry has met with Bill Linnehan and would like to have a moment to speak to you. I dont like to trade on relationships so consider this a heads up - can I have Larry call you? If you like with a quick ten minute conversation I can give you the high points but certainly I dont want you to be in left field on this issue. Later, and breakfast in my hood is in order - soon. Take care - Ken

**Subject:** Spill at Copley Square

This morning one of our Customers had a spill of crank case oil at Copley Square. He called Safety Kleen for Emergency response. We immediately mobilized a team here at our facility and we contacted our Emergency Reponses network. When the Fire Chief arrived at the scene of the spill he contacted another company to respond to the spill.

Safety Kleen is a licensed and regulated company in all facets of Hazardous Waste removal, storage, treatment, and Emergency Response. We are an International company with more than 163 branches across this country. We have three branches that our permitted and regulated by the State of Massachusetts. Yet when called by our customer to respond to this spill this morning, we were told by our customer, that the Fire Chief told our customer we were not equipped to handle this spill event. I am wondering, if we pay Hundreds of Thousands of dollars every year in Hazardous Waste taxes, that we collect from our Thousands of customer we have in the Great State of Massachusetts, then what does it take to be able to respond to one of our customers needs, especially in time of an emergency.

Understanding that for public safety, the Fire Chief that arrived on the scene may have a contractor that he regularly uses in this situation, and if I were a resident of Boston I would be proud and feel safe in knowing Hazmat has things under control. My concern is when our customers are told by the Boston Fire Department, that we are not equipped to handle such an event, I wonder where this information comes from. My branch is located in Marlborough. We are also supportive of our local fire department and have emergency plans in place in the case of any type of Hazardous Waste event.

So my question is how do we educate your fire department to the fact that we also can respond to such events as hazardous waste releases! What can we do on our part to help in this education?

Regards,

#### Hi Michael,

The We Are Boston invites are going to print before the end of the week. I just wanted to check in with you again before we finally go to print. I have to confess that I am nervous about keeping the event at the Convention Center unless you hear from Local 26 that they will not protest the event (in the event that the negotiations with Aramark does not work out).

Can you please let me know before the end of the week. If I do not hear from you otherwise, I am inclined to move the event to the Copley Mariott rather than risk a potential protest of New Bostonians at an event celebrating New Bostonian heritage, contributions and diversity. Please advise.

Looking forward to hearing from you. cit

# Beatty: Why I'm challenging Kerry and why I'll win

Beginning in 2006, Jeff Beatty knew he wanted to run for one of Massachusetts' seats in Washington, but, he said, the questions were which one and when.

In this third and final segment of a sit down interview with *PolitickerMA.com*, Beatty reflects on his political education, namely what tricks he picked up from his 2006 challenge to U.S. Rep. Bill Delahunt and what he learned from Ed O'Reilly, the Democrat who challenged U.S. Sen. John Kerry in this year's primary. He explains why he decided to challenge Kerry and how he intends to beat the 24-year incumbent.

"I want voters on Nov. 4 to go in and ask themselves these questions: 'Who do I trust to make a correct decision and also to make that decision for the right reasons? Who do I trust to make a decision that is putting my interest first, not their own? What combination of dissatisfaction or distrust of Kerry along with an appreciation of the relevant experience that Beatty brings to bear, where's the mix?'" Beatty said. "And we'll get an answer on Nov. 4. I am convinced that if people ask themselves those questions, we're going to win the election."

Hello,

THIS MESSAGE IS FOR MAYOR TOM MENINO. I had sent an email a week ago in regards to my problem of my car being towed and the ticket as well as the appeal being asked for me to show up and take time out of my day after the city of Boston deliberately towed my care in an insidious way. Please see that attachments in regards to this issue.

Please contact me ASAP about this as I have no time for an appeal for something that I should not have been towed for!!!

**Subject:** Thank you.

Dear Mr. Kineavy,

I wanted to send you a quick note to thank you for your support during this personally and professionally challenging time for me.

Although you are cognizant of the facts, I believe that it is important that you heard directly from me regarding this matter.

I hope that you understand that I did not create this situation of non-disclosure with intent or malice. I would never conduct myself in anything less than a professional manner in matters that could reflect poorly on Mayor Menino or his Administration.

I take pride in the work that I do, both in my position with the City of Boston and my community - and would never intentionally commit an act that could question my personal or professional integrity.

I am confident that the facts in this matter will all be brought forward - and that an informed decision will be made regarding my status within the City of Boston.

Knowing that you are aware of the situation and will see that it is handled properly and appropriately is of great comfort to me, and again thank you for your support.

Sincerely, Beth Burton

Michael,

Thanks for your offer to meet with Andrea Laing, the Victory Programs Board Chair, and myself regarding Victory Programs ongoing challenge form the Boston State Hospital CAC. I checked with Andrea, and she was not in, so I"ll work with Cathy to find another time when I can introduce her to you. Andrea is in the BRA as Assistant Director for Affordable Housing Compliance. She had been on the ReVision House Board of Directors before its merger with Victory.

Re-Vision House/Urban Farm's proposed "ReVision/New Urban Farm" were part of Lena/New Boston's successful designation to develop Olmstead Green. The CAC supported this configuration when Olmsted Green went before the BRA for zoning appproval. But since Victory Programs merged with ReVision House, the Boston State Hospital CAC has not supported the "Victory Programs Urban Farm." Although the BRA has never suggested that the Boston State Hospital CAC has any formal authority regarding this process, the BRA has been reluctant to move forward on the urban farm without the Boston State Hospital CAC approval. Victory Programs has asked to be included on the CAC's agenda three times and been turned down three times (Rita Dottin-Dixon signs the letters.) Andrea has been working with Heather Campisano on this matter. Jonathan Scott is meeting with Linda Dorcena Forry this week.

Hi Michael: the term "closer" has actually been used nationally by other jurisdictions who do this on a regular basis but closing counters would be fine. I just didn;t want you to think I was going all "Kyra Sedgwick" on you!

Gerry and Michael,

Please take a look at the attached release about preparations for the upcoming election. We plan to send it out to the weeklies, but I wanted to get your ok first. Since the sticker campaign is a hot button issue, pay close attention to the paragraph that mentions using "closers" to help.

Let me know if you have suggestions.

#### Big Bellies-

Call Chief Royer or Tim McCarthy at Public Works. I spoke with Tim McCarthy at Public Works, big bellies are not expanding in the SE because there are already big bellies on both sides of the street along Tremont Street between Clarendon and Mass Ave. Installing new Big Bellies at major intersections along Mass Ave would address the requests of three neighborhood associations, including Claremont, Chester Sq and Worcester Sq. Claremont in particular would like to see big bellies along Mass Ave and at major intersections down Columbus. Worcester Square would like to see big bellies on Washington at major intersections. Residents understand that the big belly locations should be in front of businesses with high foot traffic. The locations below fit these qualifications.

#### Locations:

**561 Columbus at intersection of Wellington (Claremont NA)**-requested specifically by Claremont NA so that people no longer hang bags of trash on the park fence, regular trash can at this location was removed six months ago due to abuse

538 Columbus Ave (Claremont NA)-corner of Columbus Ave and Worcester St

443 Massachusetts Avenue (Claremont NA)-corner of Columbus and Mass Ave on odd side of street

498 Mass Ave (Claremont NA/Chester Sq NA)-corner of Mass Ave and Tremont

501 Mass Ave (Claremont NA/Chester Sq NA)-corner of Mass Ave and Tremont

632 Mass Ave (Chester Sq NA/Worcester Sq NA)-corner of Mass Ave and Washington

635 Mass Ave (Chester Sq NA/Worcester Sq NA)-corner of Mass Ave and Washington

702 Mass Ave (Worcester Sq NA)-corner of Mass Ave and Harrison

709 Mass Ave (Worcester Sq NA)-corner of Mass Ave and Harrison

1714 Washington St (Worcester Sq NA)-corner of Washington and E. Springfield

1723 Washington St (Worcester Sq NA)-corner of Washington and W. Springfield

Total 11 big bellies

#### Newspaper boxes on Columbus Ave: Completed

Residents complained about underserviced newspaper boxes on the corner of Columbus and Mass Ave. I followed up with ISD and PW. These boxes were ticketed by ISD in the past. Public Works removed those boxes on Tuesday, September 30.

#### Welcome to the South End Blue Neighborhood sign:

Call John Lynch or Pat Brophy at DND. The NICE program installed these signs in various neighborhoods, but has no funds left. There is currently no sign for the South End. Residents have suggested either end of Mass Ave as cars enter the South End (near where Mass Ave intersects with Albany St or Columbus Ave) as possible locations for this sign. The historical commission obstacles for the sign are unknown.

#### Rutland Green, 74 Rutland St:

Follow up with John Palmieri regarding blocked sale of this property to South End/Lower Roxbury Open Space Land Trust due to back taxes.

Ringgold Park (geographically part of the Eight Streets Neighborhood Association):

Call Commissioner Pollak for general park cleanup, including trimming and cutting shrubs, trees and grass, sweeping walkways and general maintenance of benches and lights. Friends of Ringgold Park planned their own park cleanup day for September 27.

The Friends of Ringgold met with the Mayor and Commissioner Pollak in July.

Parks painted lampposts, repaired wooden benches and cut the shrubs after this meeting. This work was recognized and much appreciated by the Friends of Ringgold Park.

The Friends of Ringgold recently have been chosen to receive Brown Foundation Funds for their fountain installation

The reporter from the Dorchester Reporter also does the Mattapan Reporter and wants to go there tomorrow as well.

Thomas Burns called in today to say he would be painting in Mattapan tomorrow, but his phone service is out and he doesn't have his own computer to check email so I don't know if he'll get this message.

Should we have someone at ONS at these sites tomorrow?

Hi Thomas,

Bill Forry here from the Mattapan Reporter.

We are working on a story this week about the Paint Box project. I'd like to stop by at some point tomorrow afternoon (hopefully) while you are working in Mattapan Sq.

If you are available, please let me know a good time. I won't get in your way, just snap a few shots.

## Thanks,

Mr. Membrino,

Mayor Menino has asked me to follow up with you on your recent emial. My name is Tom Tinlin and I am the

Commissioner of the City of Boston Transportation Department. First I want to thank you for your correspondence of September 10, 2008 in regards to the unpleasant experience you had in the Fenway Park area which caused you to miss the Red Sox game.

Secondly I will be following up with the Red Sox on you suggestion of providing a map where parking is available when sending out disabled seating game tickets. I will also speak to the Red Sox about a shuttle service from Alewife to be frank they used to provide one from the Ruggles MBTA station but I am not sure if that is still in affect but I will find out.

Furthermore you should know that as of this writing I have spoken to Boston Police Captain William Evans and alerted him to the potential of abuse of HP plates and placards during the Red Sox Games and he and his charges will investigate. I have also informed my staff to inspect the open air parking lots to ensure that they are inspecting the lots and writing violations if HP parking is not provided and maintained. I have also spoken to the Steve Spinetto who is the Commissioner for person with Disabilities to what other efforts we can work on together to ensure an open and welcoming environment for all.

Although, I can not promise a refund for you unused tickets I would be happy to follow up on the request. You can mail me a copy of the tickets at:

Thomas J. Tinlin Commissioner, Boston Transportation Department Room 721 Boston City Hall Boston, MA 02201

If you need anything else please feel free to contact me at this email address or call me at 617-635-4810.

Sincerely,

Tom Tinlin
